Every Two Minutes

Physicians fell us that all the blood in a healthy liuman body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We willsend you a Be oute that this sectors of a label is on the weap per of every bottle of Emulsion you bus. SCOTT & BOWNS Chemits 409 Pratition, N. Y.
